Carpentry Set  
Title Spectre 5pc Carpentry Set in Wooden Box (No.4 Plane, Block Plane, Square, Bevel, Gauge)

SP-17177  
This Spectre traditional carpenters tool kit has been specially commissioned to provide the essentials you need for working with wood. The kit contains four traditional woodworking tools in a wooden tool box for transport and storage.  
Made from hardwood, brass and steel, the tools have been carefully chosen to provide a versatile platform on which to build a fully featured tool kit, or to add to an existing one.  
All the tools are made to the highest quality from the finest hardwood, brass and steel.  
Supplied in a lined wooden case with metal hinges.

**Features**  
A marking gauge is essential for laying out scribe lines during joinery applications, and the included tool is an especially versatile model which can be used as a mortice gauge for marking out mortice and tenon joints.  
The try square gives you a 90° reference point and straight edge for ensuring your cuts are as square and accurate as possible.  
The sliding bevel enables you to accurately transfer angles and is often used when cutting dovetail joints.  
The No.4 smoothing plane is a classic design which has been around for over 100 years, during which time it has become the most popular hand plane for finishing wood.

The block plane is ideally suited for working on end grain and smaller surface areas.  
The tool kit includes a wooden storage box to keep everything together. This is a super gift for the professional, enthusiast or apprentice.

**Set includes:**  
No.4 Smoothing Plane  
230mm Try Square  
230mm Sliding Bevel  
Mortice and Marking Gauge
